

Three Mile Pond Association

September 5, 2011

This was the first meeting since our Annual Meeting in July. We had eight in attendance.

Keith George gave information about the new web site he is working on; he is being assisted by Shawn Box who is with The Fox Glen snowmobile Club.

Dave Graber and Keith walked the outlet on Sunday September 5, along with Frank Richards the president of Webber Pond Association. They gave reports on what was found and possible ways to clear the stream. Frank Richards will take the lead on this; he will apply for a grant. George will contact Rob Tobey on possible action on the stream. The pros and cons of the alewives were discussed.

Two sources of runoff into TMP were talked about...we need to take action on these spots.

Action Plan: 1. Frank Richards and Keith George regarding funding.
2. Talk with Rob Tobey about procedures on cleaning stream as to property owners, the state, and any liabilities.

Next meeting will be October 2, 2011.
